

해외 유학/교환학생 프로그램 보고서

Study Abroad/Exchange Program Report

이름: 유 *종 Student Name:	학번: 2019***** Student ID Number	학과: Global Hotel Management Department
해외 학교명: Universidade Europeia School Name		
국가, 도시: Portugal, Lisbon Country, City:		
해외 유학 과정 명: Tourism Program Name:		
해외 유학 기간: 2022/09/05 ~ 2022/12/16 Period of Study		
해외 유학/교환학생 프로그램에 참가목적: What were your reasons for studying abroad? The purpose of participating in the overseas study/exchange student program was to improve English skills first, confidence in English, and finally, I wanted to know about school life different from Korea.		
해외 학교생활및 학과공부: Please describe your school life and the courses that you took. At first, I had a lot of worries about my overseas school life. But that worry soon disappeared. Foreign friends talked to me first, told me to always speak comfortably if I had any inconvenience, and rather, they were very considerate. If there was something I didn't know, he helped me like his job and had a very comfortable school life. Also, the professors didn't consider me as a Korean very much, but they did consider and consider me to a certain extent. Studying the department was more difficult than I thought. It certainly looks easy, but it was difficult to study alone because there was no one to tell me if I was doing well or not. However, there was a limit to asking everything to foreign friends. However, when I asked my professor or friends, they kindly informed me, but it was not a 100% satisfactory answer. But the test or study itself was not difficult. It was difficult because I understood and didn't know how the test was presented and how to study.		
현지에서의 생활 (여행및 음식, ...): Please describe your local life besides your studies (for examples, travel, food, ...) Life on the Portugal was generally good. The security was good, the transportation was convenient, and the taxi fare was cheap. However, it may be a little difficult for Koreans due to the lack of diversity in food, but there is a Korean mart, so it doesn't matter if you cook and eat it. But Korean ingredients are generally expensive, so it's a little burdensome. The advantage is that you can see many places in a day because the country is small, but the disadvantage is that there is nothing to do if you travel for a long time. Seafood is famous and you can eat meat cheaply. The price of dining out seems to be average compared to European countries. It is by no means cheap. Also, there are not many people who can't speak English as much as I thought, and generally speaking English quite well.		
해외 유학/교환학생 프로그램을 통해 얻은것들은? What were the benefits for you to participate in a study abroad program? The first thing I gained from studying abroad/exchange student programs is confidence in English. Since there is no Korea in the university itself, I have to use English as a necessity, and my friends around me also come from many European countries, so I can gain confidence in English by using it naturally. This is the second announcement. Most classes include presentations as essential. So naturally, I learned about the skills of presentation and how to do it efficiently while making presentations frequently. Finally, it is a debate. Unlike Korea, we communicate with professors and share our thoughts on each other. It was good to be able to get close to professors and speak my thoughts more comfortably through this communication. Through these things, my English skills naturally improved.		

해외 유학/교환학생 프로그램을 준비하는 학생을 위한 조언:

Would you have advice or tips for someone preparing for a study abroad program?

As advice for students preparing to participate in overseas study/exchange student programs, I think going alone can be harder than you think. I think it can be a little difficult to solve alone because problems that you haven't even thought about are popping up. However, if there is no one to go with, it would be a good experience to think of it as an experience and leave alone. And it costs more than I thought, so it would be good to prepare in advance. Another advice is that you can do everything with confidence.
